

AMP GLOBAL 2017

Global Congress on Molecular Pathology

Diagnostic Technologies and Clinical Applications

Advancing Patient Care Through Molecular Medicine

Target Audience

- Lab Professionals (Directors, Researchers, Supervisors, Managers)
- Clinicians (Oncologists, Geneticists, Infectious Disease and Primary Care Physicians)
- Molecular/Medical Technologists and Doctoral Trainees

Topics

- * Cross-Cutting Sessions on Emerging Diagnostic Technologies:
 - Liquid Biopsies
 - Small or Degraded Specimens
 - Informatics
 - Microbiome
 - Quality Assurance
- * Focused Discussions on Molecular Pathology in:
 - Cancers
 - Inherited Conditions
 - Infectious Diseases
- * Practical Short-Courses in:
 - Next-Generation Sequencing
 - Clinical Informatics Pipeline
 - Clonal Evolution and Heterogeneity
 - Emerging Technologies
- * Industry Workshops & Exhibits

April 3-5, 2017

Estrel • Congress & Exhibition Center

Berlin, Germany
